

Johan Steyn

Executive Vice President - Land Systems

Johan Steyn is the Executive Vice President of Land Systems at Saudi Arabian Military Industries (SAMI). His expertise, as a member of the Executive Management team, plays a crucial role within SAMI in building local capabilities for the manufacture, maintenance, repair and production of land systems, focused amongst others on Wheeled- and Tracked Combat Systems, Artillery Systems and other Tactical Vehicles, to localize at least 50% of the products and services in the Saudi land systems. Johan has 30 years of experience in the global defense industry. He served as the Managing Director and a Board Member at BAE Systems Land Systems South Africa Pty (LTD), a subsidiary of BAE Systems and later as CEO of Denel Vehicle Systems.
